## CROSSMANS, AGED COUPLE, WILL BE BURIED TOGETHER

The second double funeral service of the week will be held Thursday afternoon at 2 o'clock in the Baptist church at 5 o'clock today. He came to Wisconsin with his parents in 1844, settling at South Fort which is now Kenosha. Later he held the home of a farm on the village of Afton and the family moved into Rock county March 3, 1848.

The funeral services of Mrs. Crossman which were to have been held at the home at 2 o'clock today have been postponed by the sudden passing away of Mr. Crossman. A double funeral will be held at the Baptist church at 5 o'clock Thursday afternoon with interment in Oak Hill cemetery.

In the passing away of Mr. Crossman, Rock county has lost one of its early pioneers. He was born near Uxala, Onondaga county, N. Y., Nov. 29, 1811, making him 108 years old. He came to Wisconsin with his parents in 1844, settling at South Fort which is now Kenosha. Later he held the home of a farm on the village of Afton and the family moved into Rock county March 3, 1848.

He has resided in this county ever since except four years spent in Belvidere, Ill. Mr. Crossman moved to Janesville in 1895 where he has continued to reside.

Mrs. Crossman, whose maiden name was Phyllis C. Baldwin, was born in the town of Benson, Vermont, Nov. 25, 1814. She came to Wisconsin with her parents 10 years later settling in Johnston, where the family resided for a year and then moved to a farm in Beloit township where her father purchased a farm.

Both Mr. and Mrs. Crossman were of good New England stock, Mr. Crossman being a descendant of Governor Winslow, the second governor of Plymouth colony.

Mr. Crossman suffered a severe accident Oct. 9, 1878 when he was caught in the tumbling rod of a threshing machine and suffered fractures of 13 bones. He was under the care of a doctor for over two years. This accident has been a great draw back to him for 40 years.

Mr. and Mrs. Crossman were married Jan. 21, 1854, by the Rev. John Chamberlain. Two sons were the result of this union: George Crossman, who died in Bakersfield, Calif., Jan. 18, 1905, and whose body was interred in Oak Hill cemetery; Mr. Crossman leaves one son, E. F. Crossman, Janesville, who is the last member of the family to survive. He is now 72 years old.

## OLD YUBA STREET RETURNS TO LIFE

Once more that two-block thoroughfare in the Second ward is Yuba street.

Councilmen heaved three big sighs of relief last night after they had voted to change the name of the street back to Yuba instead of Irving Place. The matter has been bubbling up in council meetings like a volcano for the past six weeks.

The matter first came up in the form of a request of a property owner to change the name of the street back to Yuba.

## TAX PAYMENT TIME EXTENDED 15 DAYS; PLAN ALARM SYSTEM

Property owners have until Feb. 15 to pay their taxes. The ordinance with a motion picture passed by the council last night. Less than 60 percent of the local tax has been collected to date, said City Treasurer George M. Welch.

The law says that taxes shall be paid before Feb. 1 to avoid a two percent penalty. The ordinance made for the council to extend the time limit 15 days. This is customary here.

The motion as passed requires payment on or before Feb. 15 to avoid the penalty. In connection with tax collections Mayor Welsh advised the council in regard to taking some measures of safety with the thousands of dollars taken in daily at the city hall. He suggested installation of an alarm system whereby in case of a hold-up one of the employees could stop a button and notify the police. Declaring such a hold-up to be in the nature of a robbery, he said that if it was no laughing matter when he saw smiles on several faces. He advised the city electrician to take steps at once to install an adequate alarm.

The city treasurer's report for December was accepted. City Clerk Ervin Sartell was instructed to make payment of the following bills: \$24.32 to M. A. Jorsch for electrical work at the city hall; \$700 to E. D. Achson for painting in city hall; \$1,051.64 to the water department for water mains; and \$399.05 to Glenn Turner for overhauling the city flusher and repairing the machinery.

Upon recommendation of Ald. E. F. Kelly the bill of the Moeb-Bridges company for \$167.86 for electrical work at the city hall was accepted. A house park was declared excessive and the city attorney was instructed to demand an explanation.

The bond and record of Mr. Sartell as city clerk was accepted upon recommendation of Ald. Louis Kerstel.

## SHOVEL BRIGADE DIGS OUT BLOCKED TRAINS

[By Gazette Correspondent.]  
Milan, Jan. 27.—Rain No. 21, from Milwaukee, got into the snowdrift, two miles east of the village yesterday forenoon and was not relieved until late in the evening. Train No. 8 and another train were in the forenoon and was held here until late in the evening. The hundred or more passengers on the blocked train were hungry and cold. D. Clarke turned his farm house into a lunch room and fed them until the supply of eatables was exhausted. At 6 o'clock in the evening the local station presented the appearance of a terminal. Passenger trains, freight trains, lone engines and a slow moving train were backed up at the depot. The tie-up was finally relieved by the use of a shovel brigade.

## SPEAKER TELLS OF NEAR EAST CAMPAIGN

Assistant State Director Estill, Milwaukee, of the Near East Relief committee gave a short address at the Chamber of Commerce luncheon yesterday noon.

As this was the first opportunity which the Chamber of Commerce has had of hearing a speaker on the Armenian relief Mr. Estill outlined the plan of campaign for the county, the quota of which is \$15,000 or the support of 245 buildings.

Many of the chairmen who have been appointed for the towns and villages have reported to John Gross, county secretary, that they have organized for the drive which begins Feb. 1 and ends Feb. 22.

W. W. Dalton, chairman for Clinton, has reported that already part of the quota for the village has been raised through church organizations. Miss Neo, state organizer, is in Beloit organizing the campaign committee there.

Mr. Gross said today that many members of fraternal organizations were of the opinion that one or more orphans was the regulation number for each lodge, but any lodge or club in the city which cannot support an orphan may easily do so for \$50, the cost of supporting an orphan for one year.

## BUILDING INSPECTOR TO GET \$2,000 SALARY

A salary of \$2,000 per year will be given the inspector elected to hold the office of building inspector created by the ordinance which passed the council at its meeting two weeks ago.

This was the decision of the councilmen last night in passing another ordinance fixing salary. It is proposed to hold an examination for applicants on an early date. This will be announced as soon as Ald. Emil Pautz can obtain information as to when state building officials can be here to conduct the test.

Upon advice of Mayor Welsh the board of public works was ordered to proceed with the laying out of plans for permanent sewers on streets included in the 1920 paving program. This action is to be taken because of the trouble now being experienced with old private sewers, especially on Jackson street.

Ald. Hitt requested the city attorney to draw up an ordinance requiring the laying of conduits by the electric company under all streets which are to be paved this year. This ordinance will doubtless come up at the next meeting.

Resolutions of respect for the late W. P. Carle, who died this morning of the city, were passed and ordered published. ## STANDARD OIL CO. ORDERED TO STOP STATION ERECTION

A petition of second ward citizens protesting against the erection of a gasoline and oil filling station and storage house on North Main street was received by the council last night and was followed by passage of motion disallowing the request of the Standard Oil company for the proposed building.

City Attorney Roger G. Cunningham was instructed to notify the company at once to abandon any building or moving of materials for it now under way.

Erection of the filling and storage house is protested on the grounds that it would be hazardous to property; that it is not the proper location; and that it would be necessary to construct another spur track on North Main street.

Ald. Dullin intimated he favored an injunction to stop them in case the council's order was denied. "Burdick & Wagner were granted a license to deal in second-hand goods at 21 South River street.

The St. Paul railroad company was given permission to lay a spur track across Eastern avenue at Cherry street intersection. This track has already been laid. It connects with the main line at the intersection.

Considering the Standard-Oil company's protest against the proposed vacation of George Place, it was pointed out that it is not planned to close the street as it affects the Caloric plant but several feet west of its property line. It is a "wild" street for this reason the petition was tabled.

Dullin's resolution was passed ordering Charles Ossman, head of the Yellow Cab & Transfer company, to appeal to the city engineer to stop speeding.

Despite all efforts to eliminate it, speeding still continues, Ald. Dullin said. Mr. Ossman was instructed to notify Mr. Ossman to be present at the meeting. The license of E. Harvey, confessed speeder, was revoked at night.

Previous to passage of this motion, Mr. Ossman was granted licenses for two more cabs and Leo Shum was given a license for one.

## THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Blue-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to starved bodies. Our food need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as blue-phosphate, which is inexpensive and is sold by Smith Drug Co. and most all druggists under a guarantee of satisfaction or money back. Feeding the nerves directly and by supplying the body cells with the necessary phosphate elements, blue-phosphate should produce a welcome transformation in the appearance, the increase in weight, frequently being astonishing. Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health. CAUTION: While Blue-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

## News Notes From Movieland

BY DAISY DEAN

Virginia Pearson.

Virginia Pearson, star of photoplays which bear her name, has scarcely touched success—if one may judge from the program she has mapped out for herself and which she told recently.

"I am interested in psychic research. My mother and grandmother were spiritualists and I intend to study for a short time under the tutelage of Rev. Gordon Burroughs."

"I have been interested in this movement all my life, and it is all so simple—merely following out the laws of nature. But that is just the beginning of all."

"Late this year I am going to England, taking with me just a few from the studio, so that English settings may be made, but the primary reason for my visit is to continue studying. I shall see Sir Arthur Conan Doyle, and Sir Oliver Lodge. I have contributed several articles to Sir Conan Doyle's paper, as well as to our own Great magazine, The Free Thinker."

"After I have visited England, I am going to India—for further study. I desire to study under great teachers there. They live in a different plane from the rest of us, and one must be advanced before they can aid at all."

"From India I am going to Japan to make certain settings, and would like to return through Egypt, but I doubt whether I shall have time. I of the settings will be brought back and used in my pictures."

Asked if she expected to give up photo plays for research, Miss Pearson replied:

"No, I have no intention of leaving the films, at least not for some time. Why I try to do will be to put out four, possibly six, really big pictures this year which deal with my studies. I hope to return to the stage in three or four years. After that I believe that I shall give both of them up and devote my entire time to writing and painting."

"In all that I am doing I am receiving help from those who have passed over, and I know that I cannot fail. Before long I expect to have an article published in the Cosmopolitan."

This proves quite conclusively that Miss Pearson was just acting when she played the vampire role in Robert Hilliard's legitimate production, "A Fool There Was." Miss Pearson went with Vitaphone for a short time in 1916 and later returned to the firm in 1918. Shortly afterward she appeared in Fox productions and then organized her own company, "The Bishop's Emeralds," and "Impossible Catherine" are two of her films.

WHAT THEY ARE DOING  
Alice Joyce was so impressed with the quaint and historic places around New Orleans, where the racing scenes for "The Sporting Duchess" are being made, that she has asked President Smith of the Vitaphone if she can do a picture with its locale in the old city.

Madge Kennedy's next picture, "The Return of Zerk," is an original story from the pen of Lawrence Mo-

Claskey. "Work on the production will start very soon."

Clara Kimball Young recently entertained Madame Tetrassini at her home in New York. Miss Young's next production is "The Forbidden Woman."

Hartford, Conn.—Dairy and Food Commissioner Thomas Mott has received a number of complaints from office employees that they have been buying large quantities of what purported to be brandy chocolate drops, after eating which they exhibited every indication of having had several shots of that old, old stuff. The commissioner seized a quantity of the popular confection and left it in his office, preparatory to shipping it to the state analyst at New Haven.

This morning when he opened up his office he saw two dead mice stretched on the floor. They had been sampling the brandy drops.

NEGROES WITH BROGUE  
STARKIE OLD MARINE

Charleston, S. C.—"Shure, there's no man livin' as can mock me good County Clare brogue without feelin' the weight o' me hands."

Sergeant James Xavier, McGillin, United States Marine corps, told this to the world as he stepped ashore from the transport which had carried him back from two years in the West Indies. He had a tale to tell, and this is how he told it:

"On the way up," he continued brogue deleted for the benefit of the limotypers, "we stopped off at Nassau in the Bahamas. I was walking along the street when up to me steps one of the natives with a face as black as me old mother's stove."

"Shure, an' 'tis a foin' day fer th' Oivish," says he to me. I makes to slough him, when another marine grabs me by the arm. He'd been there before, this other marine, and he explains it all.

"It seems that hundred years ago—or maybe it was a thousand—the British sends one of their English regiments of Irishmen to the Bahamas, and the natives learned English from them. Ever since they've talked with a brogue."
